

NEW PRODUCT UPGRADE

Same part number, Same price!

Out with the OLD

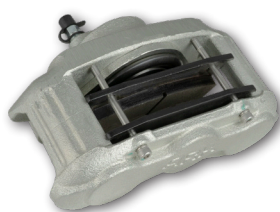

In with the NEW

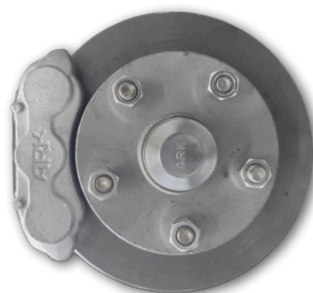

With Ark's new Hydraulic Brake Caliper, we're taking your trailer game to the next level!

Key Features and Upgrades:

- 1. Stylish Galvanised Body:** The new Hydraulic Brake Caliper boasts a sleek and durable galvanised body. Not only does it look impressive, but it also offers exceptional resistance to corrosion and more surface area for heat dissipation.
- 2. Stainless Steel Components:** Engineered with precision, this caliper features high-quality stainless steel components. Stainless steel is known for its unmatched durability and resistance to wear and tear, making it the perfect choice for your braking system.
- 3. Upgraded Brake Pad Retaining Bolts:** Your safety is our priority. The Hydraulic Brake Caliper is equipped with upgraded brake pad retaining bolts, ensuring secure and stable brake pad placement throughout your journeys along with easy serviceability.
- 4. Same mounting bolt pattern:** No need to change mounting plates or welding jigs, the new Hydraulic Brake Caliper shares the same mounting bolt pattern and bolts to streamline manufacturing and servicing of trailers.
- 5. No change to part number or cost:** Upgraded design at no extra cost, order just as usual and receive the new and improved Hydraulic Brake Caliper.

Brake Pad Retaining Bolts
